

Instructions for the PLBORN on BHPS

For England, Wales, and Scotland: CODE TO LOCAL AUTHORITY DISTRICT

1. Look up place name in appropriate OPCS volume (Census 1981: Index of Place Names, Index of Scottish Place Names).
2. Get district name. In most cases, there will be a one-to-one correspondence between the given town/county and the district making this an easy step.
 - a. If same town/county is listed against more than one district, choose the first district listed, e.g. New Brinsley, Nottinghamshire is part of two districts (Ashfield and Broxtowe), since Ashfield is listed first, choose Ashfield.
 - b. If no district name is listed, check to see whether the description code is a D or LB. The D indicates that the town is a district in and of itself and thus the town name is the district name, e.g. Bristol. LB indicates that the town is a London borough. Again the town name is the equivalent of the "district name," e.g. Hammersmith.
 - c. If a town/county is listed as a UA (Urban Area) it will not have a district name associated with it. Look for an additional listing which does have a district name, e.g. Brixworth, Northamptonshire is listed as a UA and as a Pa (parish). The parish is in the district of Daventry. Choose Daventry.
 - d. If a town/county is listed as a US (Urban Area Sub-division) ignore this line of data. Look for the same town/county as another listing. The other listing may use a more detailed name, e.g. Chorleywood is listed as a US in Buckinghamshire, the closest alternative is Chorleywood West (a locality in Buckinghamshire in the district of Chiltern); Broadstairs, Kent is a US, use the listing for Broadstairs and St. Peters, Kent a parish in the district of Thanet.
3. Once you have the district name, look it up in the alphabetical or county-order lists provided in Appendices A & B.
4. Use the four-digit code (two numerals, two letters) specified in the Appendices. In cases where only partial information is known, use two numerals followed by two blanks, e.g. London not otherwise specified = code 01__. In cases where you are also unable to ascertain the correct county, code as 9999.

FOR NORTHERN IRELAND AND THE ISLANDS

Code as Follows:

- 67 NI Belfast
- 68 NI Co. Armagh
- 69 NI Co. Antrim
- 70 NI Co. Derry (Londonderry)
- 71 NI Co. Down
- 72 NI Co. Fermanagh
- 73 NI Co. Tyrone
- 74 NI Northern Ireland (not otherwise specified)
- 75 NI Isle of Man
- 76 NI Channel Islands (Alderney, Guernsey, Jersey, and Sark)

NB: Lanark has been renamed Clydesdale. It retains its same code, 6346.
