## Issues

| #  | Project                               | Status | Priority | Subject  | Author        | Updated                | % Done | Assignee      |
|----|---------------------------------------|--------|----------|--|---------------|------------------------|--------|---------------|
| 89 | Understanding Society<br>User Support | Closed |          | variable bjBSECT (sector of current job) appears to be corrupt or anomalous with two thirds of employees being coded not applicable. Is there an explanation please? | Michael White | 11/05/2012 11:04<br>AM | 100    | Redmine Admin |
