Description			
Hello user support,			
I am hoping to get data on cognition for the subsample introduced in wave 6 (IEMB). For that purpose, I am wondering if the planned cognition testing for wave 9 will be taking place and if it will cover the IEMB as well.			
Thanks a lot for your support.

Dear Nico,

There are no cognition tests in Wave 9, but there are some in the Youth questionnaire at Wave 10, in the form of Raven Progressive Matrices. The IEMB youth sample will receive the same questionnaires as other youth participants.

You can see the questionnaires up to Wave 10 here: <https://www.understandingsociety.ac.uk/documentation/mainstage/questionnaires>

Best wishes,
Stephanie Auty - Understanding Society User Support Officer
