Description

Hello,
I am trying to create a dataset with women who were emloyed in the year when their first biological child was born. I am struggling to identify first-born children to BHPS and UKHLS female participants.

Can you please help me find the required variables?

Thank you,
Darya

Hello Darya,

We have created this variable (ch1bm_dv and ch1by_dv) and it is available in xwavedat file. Please note ch1bm_dv is only available in the SPecial License version of the data. Please take a look at these variables. If this is not suitable for your purpose or if you find any problems please let us know. problems.

Best wishes,
Alita
