Description			
Hello,			
Please is there a further breakdown of the countries of origin of immigrants (plbornc)? I am conducting a study on the EU accession 8 countries and it appears that only Poland is part of the countries explicitly labeled (10). I believe the other Eastern European countries are embedded in "others" 97. Is there any chance that you have a further breakdown of these so I can identify other Eastern European countries?			
Also, what is the date of the release of Wave 9?			
Thank you in anticipation of your response.

Hello,

Please is there a further breakdown of the countries of origin of immigrants (plbornc)? I am conducting a study on the EU accession 8 countries and it appears that only Poland is part of the countries explicitly labeled (10). I believe the other Eastern European countries are embedded in "others" 97. Is there any chance that you have a further breakdown of these so I can identify other Eastern European countries?

Also, what is the date of the release of Wave 9?

Thank you in anticipation of your response.

Ps:

In addition to the previous, I have tried to use "plboth" but I cannot locate it on any of the datasets.

Dear Olayiwola Oladiran,

The variable plbornc_all contains a further breakdown of the 'other' category and is available in the Special Licence dataset. For information about accessing the Special Licence dataset please see here: <https://www.understandingsociety.ac.uk/documentation/access-data>

Wave 9 data should be released towards the end of next year. Wave 8 will be at the end of this month.

Best wishes,

Stephanie
