<b>Description</b> Dear UKHLS User Support,  it is quite surprising for me to notice that the missing values (as proxy) of the harmonized variable (b)w_fimnlabgrs_dv are present only in BHPS and not in UKHLS. Is there a place where I can find answer to this question?  Thank you and best regards, Lydia

Dear Lydia,

There are no missing values in w\_fimnlabgrs\_dv in the UKHLS datasets because any missing data is imputed. You can see what proportion of the value was imputed for each individual in w\_fimnlabgrs\_if.

Best wishes,  
Stephanie
