Description

Hi,
I have noticed this variable is missing for some household for wave 1 to wave 8. However I do not manage to know why it is missing. Could you help me undertand this better? Does this happen only when there is non-response on income for all members of the household?

Thank you for your help,

Best wishes.
Camille

History

- Status changed from In Progress to Feedback

- Assignee changed from Stephanie Auty to Camille Portier

- % Done changed from 10 to 80

Dear Camille,

Some of the values of fihhmnnet1_dv may be negative, but I do not see any missing values in the data. The negative values are due to self-employment loss.

Best wishes,
Stephanie
