Mistake between ba_jbstat_bh ba_jbstat in Wave 1 of BHPS

02/11/2019 10:33 AM - Liam Wright

Description			
Hello,			
I'm using the harmonized BHPS and UKHLS datasets from the UK Data Service.			
I've noticed that the variables ba_jbstat_bh and ba_jbstat don't match up. (Cross-tabulation attached.) Is this intentional? There is no long-term sick category in ba_jbstat.			
The reason I ask is that I have made files to create work-life histories in the BHPS and UKHLS and I want these to work going forward, so just checking this won't be changed.			
Thanks,			
Liam			

History

#1 - 02/11/2019 10:43 AM - Stephanie Auty

- Category set to Harmonisation
- Status changed from New to In Progress
- Assignee set to Stephanie Auty
- Target version set to X M
- % Done changed from 0 to 10
- Private changed from Yes to No

Many thanks for your enquiry. The Understanding Society team is looking into it and we will get back to you as soon as we can.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer

#2 - 02/25/2019 10:42 AM - Stephanie Auty

- % Done changed from 10 to 30

Dear Liam,

Thank you for pointing this out. It is a labelling issue in Wave 1 and we are working to resolve it. I can update you when we know when the updated version will be available.

Best wishes,
Stephanie
