Description I'm hoping to use the variables "a_nbrsnci_dv" (Buckner's Neighbourhood Cohesion Instrument), c_nbrsnci_dv and f_nbrsnci_dv. They should be in the individual response files according to the data documentation (https://www.understandingsociety.ac.uk/documentation/mainstage/dataset-documentation/wave/1/datafile/a_indresp/variable/a_nbrsnci_dv) but I don't have them in my data release. Do you know if and where I can get hold of it? Many thanks			

History

Dear Mike,

I see these variables in my copy of the a_indresp, c_indresp and f_indresp. Please try re-downloading the data.

Best wishes,
Stephanie
