On variables in entrepreneurship studies

03/08/2019 03:54 AM - Daniel Okoli

Status:	Feedback	Start date:	03/08/2019
Priority:	High	% Done:	70%
Assignee:	Daniel Okoli		
Category:	Questionnaire content		
Description I'm currently researching on self employment among ethnic minorities in the UK and I'm wondering if you have got a guide to variables that have been used within the context of entrepreneurship studies? I looked at the FAQ provided on your website but it doesn't offer anything on this. Thanks.			

History

- Category changed from Data analysis to Questionnaire content
- Status changed from In Progress to Feedback
- Assignee changed from Alita Nandi to Daniel Okoli
- % Done changed from 10 to 70

Dear Daniel,

I think you will find our Index Terms page useful: <https://www.understandingsociety.ac.uk/documentation/mainstage/dataset-documentation/index>

In particular, there is a page for variables on self-employment which lists which variables are available in which wave on this topic: <https://www.understandingsociety.ac.uk/documentation/mainstage/dataset-documentation/index/employment-self-employment>

Best wishes,
Stephanie
