Description			
Hello,			
In the nurse visit a question is asked as to whether the respondent was 'taking or using any medicines, pills, syrups, ointments, puffers or injections prescribed for you by a doctor or a nurse?'			
I'm aware there is another question as to whether these were taken in the last 7 days though I was wondering if there is a timeframe associated with the first question? For example is this within the last 12 months?			
Many thanks, Luke
