Description			
Dear Sir or Madam, I am looking for a definition of a "partially productive interview" used in Understanding Society. Could you please direct me to where I could find it? Many thanks!

- % Done changed from 10 to 80

Dear Olga,

A partial interview is where someone has completed up to the household finances section, but not finished the interview. We define this as a useable partial. If someone does not get as far as the household finances section then they get an unproductive outcome, and their data is not included in the dataset.

Best wishes,
Stephanie
