Description The variable howling (hours spent on housework per week) is included in the variable catalogue in indresp in waves 1,2,4,6 and 8. Although the variable search shows now matches, looking further into the time use module shows this variable. However, it is currently not included in the SN6614. I would appreciate clarification about this variable. Many thanks in advance.			

History

Hello,

You have made a small typo - the name of the variable is HOWLNG and not HOWLING. The variable HOWLNG is available in the INDRESP files for the waves you have specified (1, 2, 4, 6, 8).

Best wishes,

Alita
