Stability across Big 5 personality between wave 15 of BHPS and wave 3 of Understanding Society

12/16/2019 06:28 PM - C Josten

Status: Resolved	Start date: 12/16/2019
Priority: Low	% Done: 100%
Assignee:	
Category: Data inconsistency	
Description Hi! I'd be interested to know if someone has tested the stability of personality across the two waves in which the Big5 were recorded. The correlations across those two waves appear to be very low, which I am puzzled about. Has anyone tested the validity of this? Thanks and best, C.
