Description			
Hello,			
I am using the data " <i>Understanding Society: Waves 1-9, 2009-2018 and Harmonised BHPS: Waves 1-18, 1991-2009</i> ". I am interested in demand for meat /consumption of meat products in a household. I see that for the BHPS this was the variable " hscane " and " hscnte " in the data file hhresp. However I am unable to find any variable in the Understanding Society waves (which are more recent) that align with the BHPS variable. Is there any variable that gives any information on the consumption of meat or poultry or pork for the households?			
Thank you.			
Best N

Dear Neha,

We don't ask any questions on meat consumption in Understanding Society.

Best wishes,
Stephanie
