<b>Description</b> I have a query about the jobsec variable in understanding Society. The variable description suggests it is 'job security in next 2 months'. But the description of the question suggests that it is actually job security over the next 12 months. Is there anyone who knows what was actually asked/answered?

Sagar,  
The question wording is what was read out to the respondent, so this is the correct number of months. Thanks for making us aware of this error.

Jakob
