<b>Description</b> Hi, I'm a researcher working with the USoc data, interested in neighbourhood effects. I have been using the (Special License Access) USoc Wave 1 data, geocoded to LSOA level, and I was wondering when similar geocoded data would be published for Wave 2.

- Target version set to M2

Rob,  
The Wave 2 LSOA 2001 lookup should be available from UK Data Service (formerly known as ESDS) within a few weeks, although we don't know the exact release date at the moment.
