| Description <p>I am currently investigating the development of attitudes towards immigration and I am planning to use Understanding Society. I am planning to build an indicator of "attitudes towards immigration" using national identity, education and political views as proxies (following Kaufmann, E. and Harris, G., 2015. "White Flight" or positive contact? Local diversity and attitudes to immigration in Britain. Comparative Political Studies, 48(12), pp.1563-1590.). However, I was wondering whether you are aware of any other relevant variable within the survey that might be relevant and that I could take a look at?</p> <p>Many thanks in advance and have a lovely day,</p> <p>Best, Laura</p> | | | |

Dear Laura,

You can find more related questions by using our index terms search:

<https://www.understandingsociety.ac.uk/documentation/mainstage/dataset-documentation/index-terms>

and by reading the full questionnaires which you can download here:

<https://www.understandingsociety.ac.uk/documentation/mainstage/questionnaires>

If you would like to discuss this topic with other researchers you could join our jiscmail list by emailing UKHLS-REQUEST@JISCMAIL.AC.UK

Best wishes,
Stephanie
