Description Dear all, Are individuals recruited to UKHLS also allowed to participate in other studies? If so, is there any known sample overlap between the UKHLS and other studies? Thanks, Amy

Hi Amy,

We have no restriction on our respondents participating in other surveys but we don't know who has participated in another survey (and if yes, which ones). But we check to make sure that the addresses selected for new samples aren't part of any of OUR current samples. However, we don't check at the sampling stage whether the address is part of any other survey managed by someone else.

Best wishes,
Alita
