Description
Hi
I would like to ask about the fimnlabnet_dv variable: what dose the negative values represent ?

History

#1 - 07/20/2020 06:06 AM - Alita Nandi

- Status changed from New to Feedback

- Assignee set to amwaj abugamza

- % Done changed from 0 to 90

- Private changed from Yes to No

The negative values refer to self-employment losses. You can check that by:

tab a_jbemp if a_fimnlabnet_dv<0

And you will see that all these indiivuals with negative net labour income are self-employed

(This question has been answered earlier https://iserswww.essex.ac.uk/support/issues/1290)
