<b>Description</b> Hi folks,  I was wondering if you could tell me what the values 7 to 12 relate to for the jbnssec3_dv variable? Also, I'm a bit unsure as to why there is such a high inapplicable response rate for jbnssec8_dv?  Many thanks,  Michael

Hi Michael,

this question has already been asked, please see <https://userswww.essex.ac.uk/support/issues/1337>.

The variable is not applicable to those who are not currently in work. For detailed information, see the variable documentation and universe field of the input variables (particularly jbsoc00 jbhas jboff) in the questionnaire.

Hope this helps,  
Gundi
