<b>Assignee:</b>			
<b>Category:</b>	Derived variables		
<b>Description</b> Educational variable 'd_qfhigh' includes 16 categories (shown as below). Does lower coding imply a higher educational level? 1 University Higher Degree (e.g. MSc, PhD) 2 First degree level qualification including foundation degrees, graduate membership of a professional Institute, PGCE 3 Diploma in higher education 4 Teaching qualification (excluding PGCE) 5 Nursing or other medical qualification not yet mentioned 6 A Level 7 Welsh Baccalaureate 8 International Baccalaureate 9 AS Level 10 Higher Grade/Advanced Higher (Scotland) 11 Certificate of sixth year studies 12 GCSE/O Level 13 CSE 14 Standard/Ordinary (O) Grade / Lower (Scotland) 15 Other school (inc. school leaving exam certificate or matriculation) 96 None of the above  Another derived educational variable 'd_hiqua_dv' includes 6 categories (shown as below). What are the type of people who have other qualifications in the data? Is it lower than GCSE? What the other higher degree might be? Is it between degree and A-level? Does it refer to other higher education? May I treat d_hiqua_dv as an ordinal variable? 1=Degree 2=Other higher degree 3=A-level etc 4=GCSE etc 5=Other qualification 6=No qualification

Hello,

While a lower value generally reflects a higher educational qualification, these are not ordinal variables and so please use information about the UK educational qualification system to decide how you will treat these variables.

About your question on what "5 other qualifications" in hiqua\_dv represents. There are a number of posts on how the education variables have been computed. See these.

<https://iserswww.essex.ac.uk/support/issues/1383>

<https://iserswww.essex.ac.uk/support/issues/1407>

In particular please take a look at the look-up file provided which shows how the different variable categories match up:

[https://iserswww.essex.ac.uk/support/attachments/13/Look\\_up%20hiqua\\_dv.pdf](https://iserswww.essex.ac.uk/support/attachments/13/Look_up%20hiqua_dv.pdf)

Best wishes,

Dear Alita,

Thanks for sharing the look-up file, which is very helpful. I currently get an understanding of how other qualification is coded.

Meanwhile, I searched the Government Statistics Service Harmonised Principle for educational attainment (<https://gss.civilservice.gov.uk/wp-content/uploads/2019/04/Educational-Attainment-April-18.pdf>) and found that Degree is generally the highest educational attainment, followed by other higher education, A-level, GCSE etc. However, I am not sure whether GCSE is higher than other qualification in UKHLS. May I ask if other qualification (CSE and Other school) is lower than GCSE etc (GCSE/O Level Standard/Ordinary (O) Grade / Lower (Scotland))?

I am looking forward to your reply.

Kind Regards,  
Ting
