| Description | | | |
| Hi, | | | |
| We are conducting analysis on the Teacher Labour Market and we are using Understanding Society data. We have a special license access for Waves 1-10 (Study Number 6931), as we need the Standard Occupational Classification codes to identify the precise job that individuals have. We have access to the provisional mainstage 'jk' data which includes waves 10 and 11 data, however we do not have access to a special license version of this data (specifically special license access to the wave 11 observations), and so only have condensed Standard Occupational Classification codes of current employment. We were wondering if there is a way of accessing the special license version of the 'jk' mainstage data (waves 10-11) which includes these Standard Occupational Classification codes as we already hold the special license for waves 1-10 of the understanding society data. | | | |
| Thanks very much, Henry Faulkner-Ellis | | | |

- Private changed from Yes to No

Hello,

Special License version of Wave 10 has been released in November, and the Wave 11 data will be released in 2021. There are no plans to release Special License version of the jk_ files.

Best wishes,
Understanding Society User Support
