| Description May I ask whether there is any document or report showing how the household asset in Understanding Society is questioned, calculated, and analysed? For example, how do you measure the current asset and real estate? And how do you measure the total household asset and compare it throughout different waves? Any guidance on household asset calculation might help. Thank you! | |

History

- Status changed from New to Feedback
- % Done changed from 0 to 80
- Private changed from Yes to No

Hello,

Respondents are asked questions about assets and wealth and you can find that by looking through the household questionnaire. The questionnaires for each wave can be found here: <https://www.understandingsociety.ac.uk/documentation/mainstage/questionnaires>

Best wishes,
Understanding Society User Support Team
