

Understanding Society User Support - Support #1618

Measuring attacks in the home using wave 1 module on harassment. Q'aire suggests this is possible. Data does not.

Description			
Hello,			
Might you be able to help?			
The variable lables are inconsistent with the questionnaire grid for the harassment module which asks the EMBS where attacks took place in wave 1. Which is correct please, see attachment for further details.			
with thanks,			
V			

History

- Status changed from New to Feedback
- % Done changed from 0 to 80
- Private changed from Yes to No

Hello,

Thanks for bringing this to our attention. The variable label for these variables a_attackedw17, a_unsafew17,.... are wrong, these should be "home".

Best wishes,
Understanding Society User Support Team.
