Description

I need detailed information on parents' country of birth (or, more broadly, on their origin). From the questionnaire available online I see there should be this information (Plbornc). However, I downloaded the dataset and I couldn't find it. By browsing on the internet I read this is available under special licence access, is it true? if yes, may I know the frequency of each country before applying for special licence?

History

#1 - 07/02/2013 10:14 AM - Redmine Admin

- Category changed from Questionnaire content to Special license

- Assignee set to Redmine Admin

- Target version set to X M

- % Done changed from 0 to 50

The univariate tabulations in the online documentation are based on the Special License version, see e.g.
