Hello,

Please check the dataset Westminster Parliamentary Constituencies available under Special Licence Access (<https://discover.ukdataservice.ac.uk/catalogue/?sn=6668&type=Data%20catalogue>). This dataset included the household identifier and the WPC in which this household is located, you can then link to information from other external data sources. For the list of other geographical locator variables see <https://www.understandingsociety.ac.uk/documentation/linked-data/geographical-identifiers> and for the explanation of the levels of access in Understanding Society <https://www.understandingsociety.ac.uk/documentation/mainstage/user-guides/main-survey-user-guide/data-access>

Best wishes,
Understanding Society User Support Team
