Description

Dear US team,
I am looking for a document that describes what information and from where was used to create weights that adjust for nonresponse bias.
Thank you very much in advance.

best wishes
Daiga

Dear Daiga,

Please read the weighting section in the attached pdf document, it discusses in detail how the weights are computed. You may also find useful the weighting FAQs available here: https://www.understandingsociety.ac.uk/sites/default/files/downloads/general/weighting_faqs.pdf

Best wishes,
