Hello Tobias,

Our data team is expecting to match the data from the National Energy Efficiency Data-Framework (NEED) to Understanding Society in the first quarter of the year and make it available to users soon after via the ONS Secure Research Service. The first release will contain annual gas and electricity consumption data.

You can find more information on the different levels of data access at:
<https://www.understandingsociety.ac.uk/documentation/mainstage/user-guides/main-survey-user-guide/access-levels-explained>

Hope this helps
Best wishes
