<b>Description</b> Hi,  It seems as if the coding for currently on maternity leave changed after wave 5. Would you be able to tell me what -10 refers to in wave 5 per the below as it is not defined in the variable search as relating to a result. Wave 5 - MatLeave.png

Hello Cara,

Are you working with variable w\_matleave? If this is correct I just checked wave 5 and don't see and -10 code.

Please see the result attached.

In the process of releasing the information for wave 12 (Nov 2022), an update of the previous waves was made. Therefore, if the inconsistency persists, I will recommend you download the information again.

If this is not the case, please let me know.

Hope this helps

Best wishes
