<b>Description</b>			
Dear officer,			
I am looking at the data on the place of residence. I have one doubt which makes me a little bit confused. For instance, a person aged 23 who lived with his family in area A when he was a student, then only him moved to area B due to the working reason. I am wondering which place the person belongs to in this case.			
Many thanks for your time and help.			
Best regards, Karen

- Private changed from Yes to No

Hello,

In such case they would be treated as living in a new household, whether they would be followed and interviewed would depend on their sample status: Original Sample Member (OSM) and Permanent Sample Member (PSM) would be interviewed, Temporary Sample Member (TSM) would not. Please check the user guide for further details ("Following rules"):
