Description

Hi there, previously on the FAQs section of the Understanding Society website, there was a section under "Questions about variables" that explained how the presence of different health conditions was measured at different waves and it also gave details of which conditions were added/removed at each wave. This appears to no longer be on the FAQ page. Is this available somewhere else now?

Many thanks.

Best wishes,
Laurence Rowley-Abel

History

#1 - 03/08/2023 12:21 PM - Understanding Society User Support Team

- *File FAQ_HCONDS_Changes_Waves_Description_20230214.pdf added*

- *File FAQ_HCOND_Changes_Waves_Table_20230214.xlsx added*

- *Status changed from New to Feedback*

- *% Done changed from 0 to 80*

- *Private changed from Yes to No*

We are revising it to add some more information. But here is the beta version.

If any part of this is not clear please let us know.

Best wishes,
Alita

Thank you very much - the documents are very useful! Can I confirm that the information previously on the website was still correct?

Best wishes,
Laurence

#3 - 03/15/2023 12:54 PM - Understanding Society User Support Team

Hello Laurence,

The information you previously found on the webpage is correct. It is just that we are updating the FAQ section to have comprehensive information in each case. So the beta version sent substitutes for the one posted previously.

Hope this helps

Best wishes,
Roberto Cavazos
