Description			
<p>I just wanted to understand in advance whether the USoC dataset that we are hoping to gain access to will have an individual's degree subject studied. From looking at the questionnaire, I cannot see this as a variable that is included but have also seen that the education records of the survey participants are combined with the results.</p> <p>We are hoping to minimise delays so if we cannot access degree subject studied we'll look at a different dataset. Therefore, it would be greatly appreciated if you have any information about whether or not this variable is included at any stage in the dataset.</p>			

History

- Category set to Questionnaire content
- Status changed from New to In Progress
- Private changed from Yes to No

Many thanks for your enquiry. The Understanding Society team is looking into it and we will get back to you as soon as we can. We aim to respond to simple queries within 48 hours and more complex issues within 7 working days.

Best wishes,
Understanding Society User Support Team

- % Done changed from 0 to 50

Hello Tessa,
The dataset SN 8578 Understanding Society: Waves 5 and 11, 2013/14 and 2019/20: Special Licence Access, Higher Education Codes only identifies the names of the higher education establishments studied and therefore does not include subjects.

I hope this information is helpful.

Best wishes,
Roberto Cavazos
Understanding Society User Support Team
