Description			
What is the date period for the Wave 13 indresp file, and was this post Covid. I.e would it be possible to compare a monthly COVID data set to the whole of Wave 13, looking at post Covid environment?			

History

#1 - 03/08/2024 04:40 PM - Understanding Society User Support Team

- Category changed from Data analysis to Data documentation
- Status changed from New to In Progress
- % Done changed from 0 to 10
- Private changed from Yes to No

Many thanks for your enquiry. The Understanding Society team is looking into it and we will get back to you as soon as we can. We aim to respond to simple queries within 48 hours and more complex issues within 7 working days.

Best wishes,
Understanding Society User Support Team

- Status changed from In Progress to Feedback
- % Done changed from 10 to 50

Hello Luisa

Wave 13 main stage Study covers years 2021 and 2022. The interviews span from January 2021 to May 2023. Around 2% of the interviews were done in 2023 which are usually the late respondents.

To compare monthly information please refer to [How to use weights – Analysis guidance for weights. PSU. Strata](#) section, and particularly to examples “Running analysis on a calendar year or month” and “Pooling data from different waves for cross-sectional analysis”.

I hope this information is helpful.

Best wishes,
Roberto Cavazos
Understanding Society User Support Team
