Description			
<p>Hi. I am researching the mental health of self employed people and I note that in wave 12 of the survey there is a very interesting self completed section on sex and gender . However, there does not appear to be a follow up (or proceeding) equivalent set of questions.</p> <p>I am just checking that this is the case and that aside from wave 12 there is no way of determining of the individual assigns themselves as a different gender to that they were born with?</p> <p>Thank you,</p> <p>Damien.</p>

Dear Damien,

The first time these questions were asked was in wave 12 so there is no earlier data. The questions are not asked in wave 13-15, but will be asked every wave starting in wave 16.

Best wishes,
