Description

Hi!

Is there any way to find the citizenship variable of the individuals? I can't find them in xwavedat or in the individual dataset, although they have been mentioned in this forum before.

Thank you,
Etienne

- Private changed from Yes to No

Hi Etienne,

Please see this query: https://iserredex.essex.ac.uk/support/issues/1663 The relevant variables are here: https://www.understandingsociety.ac.uk/documentation/mainstage/variables/?s=citzn&post_type=variable_mainstage&submit=Search To get the detailed information you need citzn_code and citzn2_code. These variables are under Special Licence, so you'll have to apply for this version of data: https://beta.ukdataservice.ac.uk/datacatalogue/studies/study?id=6931 Read more about the Special Licence here: https://www.understandingsociety.ac.uk/documentation/access-data/

I hope it helps.

Best wishes,
Piotr Marzec
