Description

Hello,

I tried to use Stata Code Creator to generate the code for GHQ. But every time I clicked the generate button it showed:

Error: call to URL https://isergwapi.essex.ac.uk/requests failed with status 0, response , curl_error SSL certificate problem: certificate has expired, curl_errno 60

Thank you very much!
I really appreciate your help!

Hi,

Thank you for reporting the issue. It has now been resolved, and the Code Creator is working normally.

Best wishes,
