Description

Hi folks,

I am writing regarding the variable jbnssec8_dv. This variable splits NS-SEC 1 group into two; Large employers & higher management and Higher professional. I was wondering if you have some examples of occupations within each of these groups?

- File nssec_v2.do added

- Category set to Data documentation

- Status changed from New to Feedback

- % Done changed from 0 to 70

- Private changed from Yes to No

Hi Michael,

Please see the attached file for creating the NS-SEC variables. To quickly get some examples, you can also tabulate jbnssec8_dv by jbsoc00_cc (or jbsoc00 if you have access to Special Licence data).

Best wishes,
