Description			
Hi, I am wondering if there is sexual orientation variable in the year dataset 2020-2022? And if the year dataset 2020-2022 are longitudinal or these three are cross-sectional? Thank you very much!

Hi,

I'm afraid sexuor is not included in the Calendar Year dataset for 2022. The dataset includes all data collected during 2022, which may come from Waves 12, 13, or 14. This means that some respondents may appear twice in the dataset if they had two interviews during that year.

Best wishes,
Piotr Marzec
