Description

Dear colleagues,

As far as I know, the information on gender egalitarian values is only available for the waves 2, 4 & 10 of UKHLS. It was only then that the agreement to the following statements was asked to the interviewees:

'scopfamb': "Family suffers if mother works full-time"

'scopfamd': "Husband should earn, wife should stay at home"

'scopfamf': "husband should earn, wife should stay at home"

May I ask if there has been any attempt to extrapolate the values or scores corresponding to the interviewee's answer to these statements to other waves?

Thanks for your attention

And kind regards

Luis Ortiz-Gervasi

Dear Luis,

Sorry to disappoint, but I'm unaware of any such work.

Best wishes,
Piotr Marzec
