Description I am currently working on a research project looking into the effects of hybrid work on various labour market and housing marking outcomes. Specifically, I have been looking at the variable Wkhome which is available for Wave 12 and Wave 14. I was then wondering whether this variable is also going to be available in Wave 15, scheduled to be released in November 2025?

- Private changed from Yes to No

Helo Oleg,

The variable wkhome is part of the Work Conditions questionnaire module, which is asked every other wave starting from even-numbered waves. Therefore, it will continue to be asked up to Wave 16, scheduled for release in November 2026.

For more information on the topics covered in the survey and those planned for future waves, you may wish to review the Understanding Society long-term content plan:
<https://www.understandingsociety.ac.uk/wp-content/uploads/documentation/main-survey/6614-main-survey-long-term-content-plan.pdf>

I hope this information is helpful.

Best wishes,
Roberto Cavazos
