<b>Description</b>			
<p>Hi there, I'm updating some analysis I did last year. My downloaded data from 2025 (which includes wave n as the newest wave) has the weight available for cross sectional analysis of the hhresp file as n_hhdeng2_xw. Now with my newly downloaded 2026 data (which includes all files up to wave o as the newest wave) there is no n_hhdeng2_xw, only n_hhdenui_xw.</p> <p>Have I got something wrong here? The issue is I'm updating analysis from last year and now my stats for last year are slightly different for wave n.</p> <p>Any help appreciated! Toby</p>
