Question about Ida variable

03/11/2014 05:26 PM - Lee Young

Status:	Closed	Start date:	03/11/2014

Category:	Derived variables		
Description I'm doing a study on the effects of being an ethnic minority on using the Understanding Society dataset and I am somewhat confused with the "a_Ida" (low density area for ethnic minorities) variable which appeared on the first wave. Does a "yes" mean that there are less ethnic minorities living in the area, or the other way round?
