Description

Hello,

so far I have used the educational variable (a_hiqual_dv) as it is, but for a new project I want to convert it to international standards, to be specific ISCED levels (2011 revision). So far I couldn't find any hints of premeditated conversion rules. I would be very thankful for any advice regarding this issue.

Many thanks in advance,
Tina

- Category changed from Data documentation to Derived variables

- Status changed from New to In Progress

- Target version set to X M

- % Done changed from 0 to 50

Unfortunately, we haven't looked at deriving ISCED variables yet and would be interested in hearing about your experiences with any conversions.
