Description

I am using Understanding society Wave 3, along with the Special License, Local Authority District.
I am matching the data with the Census 2011, but there are some Districts in the data that cannot be found in the Census. They are the following:

E06000057
E07000240
E07000241
E07000242
E07000243
E08000037
Do you know by any chance the reason for that?
I look forward to hearing from you.
Best regards
Cinzia

History

- Status changed from New to In Progress

- Target version set to X M

- % Done changed from 0 to 10

The source of our data is the ONS Postcode Directory Nov 2013. OSLAUA is related to LAD13 boundaries in England, where there have been some boundary changes in these areas between 2011 and 2013; see,

http://www.legislation.gov.uk/uksi/2012/667/contents/made
http://www.legislation.gov.uk/uksi/2013/595/contents/made
http://www.legislation.gov.uk/uksi/2013/596/contents/made

Users will have to decide whether to recode or convert. The changes appear relatively small, but we haven't quantified any implications for population data time series yet. Happy to hear from anyone who has.
Jakob
