Description			
<p>Hi,</p> <p>I am Maria, a PhD student in Sociology. I am using the Wave 3 of UKHLS. I checked in the indresp and hhresp datafiles but I couldn't find a variable about the type of house, in example a variable about terraced house, flat, semi-detached house and so on.</p> <p>Is there a variable available about this aspect?</p> <p>Many thanks in advance</p> <p>Best</p> <p>Maria</p>

There are some para data about the address recorded by the interviewer before any contact attempts, e.g. dweltyp, on W\_HHSAMP.
