<b>Description</b>			
Dear User Support,			
In the earlier release of wave 1 data you provided a derived variable imputing the profit from self employment earnings (a_jsprof_dv). Has this variable changed name in the latest release or is it not provided anymore?			
Thanks, Rigmor

Dear Rigmor, This variable name is no longer used. As mentioned in [#36](#) we are in the process of putting together additional documentation for all the derived income variables (incl. self-employment earnings). We hope to make this available soon.
