| Description | | | |
| Dear Sir or Madam, | | | |
| I am not able to access the data using STATA or SPSS, since I don't have access to these programs. Hence I was wondering if it was possible to access the data in excel. I am particularly interested in attitudes to diversity and migration, and attitudes towards / belonging to the local area, organised according to Local Authorities. Many thanks, Julia | | | |

- Category set to Data documentation
- Assignee set to Julia Halej
- Target version set to X M
- % Done changed from 0 to 80

The TAB format can be imported into Excel. See also: <http://ukdataservice.ac.uk/help/faq/formats#AvailableFormats>

On behalf of the team,
Jakob
