Description			
Dear Understanding Society people,			
I am working with Understanding Society and I would like to know if the survey contains any information on the duration of the relationship of individuals who are observed as being married or cohabiting. I searched in the Thesaurus and could not find any such information, but I may have missed this.			
Best wishes, Paco Perales

- Category set to Data analysis
- Target version set to X M
- % Done changed from 0 to 50

I have received the following advice:

We collect information about partnership histories during the Partnership History module (on current and previous relationships and in most detail at W1) and the Annual Events module (marital and cohabiting events). You should be able to construct a set of event histories from these data at least stretching back to W1.

Let us know if you have got any further queries in this area.
On behalf of the team,
Jakob
