<b>Description</b> Hello I am working with the BHPS, and am trying to learn more about values of the variable MEMORIG. This code the sample origin wher 1 = original sample. It is unclear what values 2, 3, and 4 stand for. I was able to deduce that they denote people from from the European Community Household Survey, but I wasn't able to find out more. 4 seems to stand for Northern Ireland, but it might not. Thank you. Chris			

### History

#### #1 - 10/01/2015 06:44 PM - Redmine Admin

- Category set to Data documentation
- Assignee set to Chris Martin
- Target version set to BHPS
- % Done changed from 0 to 50

The various samples are represented e.g. here: <https://www.iser.essex.ac.uk/bhps/documentation/volb/wave11/kindsamp.html#KMEMORIG>  
On behalf of the team, Jakob
